IIS P. Sraffa Secondary School is a large vocational/technical institute in the north of Italy. Attended by around 1000 students, it includes programmes of study to get diplomas in different areas: Hospitality – Cooking and Service, Health and Social Care, Commerce, Optics, Dental Care, Tourism, Car Maintenance, Electronics and Fashion.

The school is a great resource for the area since it caters for the most vulnerable section of learners, mainly the ones with learning difficulties but above all family problems, disruptive behaviour, lack of motivation or difficulty integrating (migrants' children - about 40%), or special needs.

The students that attend Sraffa have varied views of life because of their different cultural background or family experiences. They don't always manage to relate both with their peers and with adults in an appropriate manner. Bullying or cyberbullying, discussions or little fights due to their diversity sometimes occur. That's why the school has signed a Protocol with the Prefecture and has joined projects devoted to prevent and/or intervene when discrimination is detected.

Moreover experience has highlighted the efficacy of involving students in projects focused on a positive management of relationships, which usually results in enhanced self-esteem, self-confidence, and consequently better relationships with peers and adults.

That is the reason why the school has joined the Erasmus+ project Cre@t1ve Conflict Resolution and Peer-to-Peer School Mediation as the ability to mediate has appeared as a transversal soft skill to be fostered to endow pupils with effective instruments to face situations of conflict in the present and in the future .
